Artist Statement:

I'm Kelsey Cooper, a 2D Animator and Concept Artist based in Tempe, Arizona. In my freetime, I enjoy cuddling with my kitty, Bentley, playing video games, and watching movies. I bring the passion to animation, and my drawing tablet brings the pixels! If you have a vision in mind, I'm your guy to help bring it to life. I have experience working as a 2D Character Animator for several projects, including the *Toon Sludge Podcast* and *Daughter of the Sea*. I am also currently developing my own short film, *The Necrosis Protocol*, for my thesis at Arizona State University where I currently attend. Animation isn't just my work—it's the heartbeat that drives me!
